BAFFLE SOLUTIONS.**

FROM INSTALLATION TO LONG TERM SUPPORT

From initial system design through installation and ongoing service, JPS provided the expertise and field support needed throughout the life of your lagoon.

CUSTOM ENGINEERED

Every baffle curtain is custom-designed for your lagoon's unique dimensions, flow patterns and operating conditions.

DURABLE CONSTRUCTION

Built with premium nylon materials, reinforced components and stainless steel hardware for long-term reliability in demanding environments.

TURNKEY INSTALLATION

From field measurements and engineering to fabrication and installation, JPS manages the entire process for a precise fit and efficient performance.

CONTINUED SUPPORT

Ongoing expert support, inspections, maintenance planning and system modifications to keep your lagoon operating at its best.

READY TO IMPROVE YOUR LAGOON SYSTEM?

BUILT ON EXPERIENCE, DRIVEN BY PERFORMANCE

For over 60 years, JPS Industries has helped municipal and industrial facilities maximize lagoon performance through custom lagoon baffle systems, aeration integration, installation expertise and ongoing maintenance support.
